

EXHIBIT 11-E

SAMPLE PROJECT SIGN FORMATS

The standard elements included in project signs for public facilities or economic development projects, where there may be one or two major construction sites or buildings involved, are shown in the example below:

| | | |
|--|---|-----------|
| TOWN OF SUNRISE, MONTANA | | |
| EAST SIDE WATER PROJECT | | |
| Joan Driscoll, Mayor | | |
| CONTRACTOR: | XYZ Construction, Inc., Billings | |
| ENGINEER: | Clearwater and Associates, Great Falls | |
| FUNDING: | Montana Department of Commerce Community Development Block Grant | \$350,000 |
| | U.S.D.A./Rural Development | \$250,000 |
| | Town of Sunrise | \$100,000 |
| Working Together to Build a Better Montana Here in Sunrise! | | |

In a housing and neighborhood revitalization project, the project area will usually cover an entire neighborhood. In these cases, a single project sign may not be appropriate. The City of Havre's East End housing rehabilitation project places signs on the lawns of homes being rehabilitated throughout the CDBG project. An example of the Havre project signs, with black block letters on a white background, read:

| |
|---|
| A REHAB PROJECT OF THE HAVRE HOUSING PROGRAM |
| 265-9226 |
|  |

Included at the bottom of the Havre sign was the HUD fair housing logo and the telephone number for the rehabilitation program office. The sign helps to market the program and create a sense that things are changing for the better in the neighborhood.
